REASON FOR POLICY

Each semester a student is enrolled in a course with a clinical practicum, a student must pass the MTMA with a grade of 90% or greater in order to administer medications and/or IV fluids in the clinical setting, which are required elements to pass the course(s).

APPLIES TO

Students

POLICY STATEMENT

Students must pass with a minimum of a 90% on the Math Test for Medication Administration (MTMA) before scheduling their first medication administration skills assessments in the Simulation Learning Center for the fundamentals course, NURS 4304 and NURS 3234 in each program.

ENFORCEMENT

The MTMA will be administered utilizing Exam Soft. The course faculty determine the appropriate remediation for their course. The structured remediation *may* include modules, practice problems, and/or activities in the UConn Q lab, as available. All students must complete

some remediation prior to completing another MTMA. The remediation is an essential component of being successful on the next attempt at the MTMA.
